

# Bluestem

# 1611N

Maturity: 1.6

**Description:** 1611N is a medium height, semi-bush type soybean. Maturity is in the mid group1 with good agronomics that allow this variety to adapt to changing environments and soil types.

**Strengths:** Excellent yield. Medium height soybean with good IDC and phytophthora root rot tolerance. Fits all soil types and has cyst nematode resistance.

## Plant Characteristics

## Disease and Pest Response

Plant Height:	Medium	Phytophthora Tolerance:	8
Plant Type:	Semi Bush	Phytophthora Race Resistance:	
Emergence:	9	Brown Stem Rot:	8
Pubescence:	Tawny	Cyst Nematode Resistance:	PI88788
Shattering:	5		R3, MR14
STD:	8	Iron Chlorosis:	7
Flower Color:	Purple	White Mold Tolerance:	8
Hilum:	Brown	Sudden Death Syndrome:	8
Pod Color:	Tan		
Seed Count:	4203		

9=Excellent, 1=Poor, N/A=Not Available
