LG Seeds Brand Alfalfa

A publication of the LG Seeds Agronomy Department

- Fall Dormancy Rating: 5**
- Winter Hardiness Index: VWH**
- Persistence: EX**
- Cutting Schedule: 4-5**
- Recovery: EX**
- Superior Yield and Fast Growth**

- Our newest generation StandFast[®] alfalfa with the Fast Growth advantage.
- Up to 30% faster growth compared to other competitive alfalfas.
- Larger second, third, fourth, and fifth cuttings maximizes each season's total yield.
- Quick canopy closure naturally suppresses weed competition and conserves soil moisture for crop growth.

Management Keys

eXterra is an exciting alfalfa developed from crossing tall, fast growing European alfalfas onto elite North American genetics and was screened for high yield potential, superb winterhardiness and high forage quality. Bred in tolerance to extra wheel traffic handles more frequent harvesting operations. **eXterra** is ideally suited for hay producers looking to maximize total forage yield each season under intensive cutting schedules. Widely adapted across a broad range of geographies and soil types.
